

CDM WATCH: STRENGTHENING CIVIL SOCIETY ENGAGEMENT IN COUNTRIES OF THE GLOBAL SOUTH FOR IMPLEMENTING AND ENHANCING THE CLEAN DEVELOPMENT MECHANISM

As of: October 2021

The project strengthened civil society groups and organisations in selected host countries where the Clean Development Mechanism (CDM) was implemented. It is important for these civil society actors to be able to understand how CDM projects are implemented and to become involved in the international debate on designing the CDM. The aim was to enable civil society to voice its concerns effectively within both the national and international CDM approval procedures. A coordination office has been set up at the NGO Forum on Environment and Development to implement the project.

State of implementation/results

- project completed
- Website set up
- Local civil society continuously advised
- CDM toolkit published in 8 languages on the CDM Watch website
- Four regional workshops on 'the voice and influence of civil society in the CDM process' carried out in India, Brazil, Central America and South-East Asia
