

ELABORATION OF AN EXPERT STUDY ON „LONG-TERM FINANCING OF REDD+“

As of: February 2021

The project aimed at developing a study as basis for discussion for the Ministry of the Environment (BMU) on the question of how incentives for investment and the basic conditions for joint public and private investments in REDD+ could be achieved. The aim and the criteria of the BMU's funding area and the experiences of the ICI-program should have been taken into account.

State of implementation/results

Project completed

- Results of the project, among others, are the following studies (external):
Financing REDD+ through private forestry sector (PDF 2.9 MB)
- Addressing Agricultural Drivers of Deforestation (PDF 2.9 MB)
