

## MITIGATION MOMENTUM II

As of: October 2021

The project supported nationally appropriate mitigation actions (NAMAs) in the partner countries and improved the institutional structures, supporting the partner countries in increasing their contribution to global climate change mitigation. To this end, the project developed strategies for financing mitigation activities. Furthermore, it sought to communicate best practices related to the implementation and financing of mitigation strategies. Phase II built on Mitigation Momentum I, which supported Chile, Indonesia, Kenya, Peru and Tunisia in developing NAMA proposals. These proposals (with the exception of Chile) continued to be supported regarding financing and implementation, and in some cases additional NAMAs were developed. Additional countries developing NAMAs were Ethiopia, Georgia, and Thailand. Through the NAMA Annual Status Report published by the project and specific research on NAMA-related topics, the project also informed the international debate on NAMAs.

### State of implementation/results

- Project completed
- Side events during the climate negotiations brought the international NAMA stakeholders together and promoted an exchange of experience and peer-to-peer learning.
- Contributions to the international NAMA debate through publications on NAMAs and their financing, especially Annual Status Report on NAMAs & Updates: overview of the global status of NAMA development and implementation, additionally: "Landscape of Multilateral Climate Finance for NAMAs" and "Role of the Private Sector in Different Stages of NAMA Development and Delivery".
- Support to seven partner countries in NAMA development: 1) Ethiopia: Support for the development of a NAMA on off-grid power production based on renewable energies (RE) by the Energy and Environment Ministries: Final NAMA concept. 2) Georgia: Support for the development of a NAMA on energy efficiency in

## PROJECT DATA

### Country/Countries:

Äthiopien, Georgien, Indonesien, Kenia, Peru, Thailand, Tunesien

### Implementing organisation:

Guidehouse Energy Germany GmbH

### Political partner(s):

- Climate Change Secretariat - Kenya
- Ministry of Energy and Mineral Resources (MEMR) - Indonesia
- Ministry of Environment, Forest and Climate Change (MEFCC) - Ethiopia\*
- Ministry of Environment, Water and Natural Resources (MEW&NR) - Kenya\*
- Ministry of Environment (MINAM) - Peru
- Ministry of Environment - Tunisia
- Ministry of Environmental Protection and Agriculture (MoEPA) - Georgia
- National Agency for Energy Management (ANME) - Tunisia
- Office of Natural Resources and Environmental Policy and Planning - ONEP - Thailand
- State Ministry of National Development Planning (BAPPENAS) - Indonesia

### BMU grant:

€ 2,834,546.50

### Duration:

02/2014 till 12/2017

### Website(s):
