

## PANORAMA: SOLUTIONS FOR HEALTHY PLANET PROJECT

As of: October 2021

PANORAMA – Solutions for a Healthy Planet is a unique example of a bottom-up, multi-actor initiative combining a digital platform dedicated to identify and disseminate proven solutions with offline learning and sharing resources and activities (exchange events, trainings, webinars, publications). The current thematic areas include Protected Areas, Marine and Coastal, Ecosystem based Adaptation, Agriculture and Biodiversity and Business Engagement. In that way PANORAMA is promoting solutions that demonstrate how well protected biodiversity and well managed ecosystems help address societal challenges, increase resilience and adaptation to climate change and thereby achieve development benefits.

### State of implementation/results

- The PANORAMA Partnership has been expanded to include the following thematic communities and partners: Sustainable Urban Development and Resilience with the World Bank as new partner and the thematic community Nature-Culture with the new partners ICOMOS and ICCROM.
- An analysis on urban solutions for a sustainable development and their contribution to SDG 11 is ongoing.
- A strategic collaboration with the CBD secretariat on the support of PANORAMA to the implementation of the Long-term Strategic Framework for Capacity Development, as well as the Knowledge Management component of the post-2020 Global Biodiversity Framework took place.
- The Blue Solutions Initiative presented a booklet which offers a zoom into twenty-four marine and coastal Nature-based Solutions from the PANORAMA platform and their successful implementation for Nationally Determined Contributions in the national, sub-national and even project-level context: Can oceans and marine environments help combat the climate emergency? ([panorama.solutions/...](http://panorama.solutions/)).

## PROJECT DATA

### Implementing organisation:

United Nations Development Programme (UNDP)

### Implementing partner(s):

- Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH
- International Union for Conservation of Nature and Natural Resources (IUCN) - Switzerland

### BMU grant:

€ 2,000,000

### Duration:

01/2020 till 12/2023

### Website(s):

<http://panorama.solutions/en>

- The following webinars have been organized as part of PANORAMA 's knowledge sharing approach: "Geodiversity and Geoconservation" ([panorama.solutions/...](http://panorama.solutions/...)) and "Creating Effective Multi-stakeholder Partnerships for Conservation" ([panorama.solutions/...](http://panorama.solutions/...)).
- PANORAMA produces a biannual newsletter ([panorama.solutions/...](http://panorama.solutions/...)).
