

## SUPPORT OF THE PHILIPPINES FOR DEVELOPING AND IMPLEMENTING NATIONAL CONTRIBUTIONS TO THE INTERNATIONAL CLIMATE CHANGE REGIME

As of: April 2021

The Philippine government has established a comprehensive climate policy framework to ensure adaptation to climate change and the reduction of greenhouse gas emissions. As a key stakeholder, the Climate Change Commission (CCC) coordinates national climate policy and leads the international climate negotiations under the Chairmanship of the President. The project strengthens the CCC and other central stakeholders in coordinating national climate policy and in implementing adaptation measures and national contributions to international climate protection. Climate-smart industrial development increases the competitiveness of companies, and the expansion of renewable energies reduces supply bottlenecks. The project also supports the mobilisation of public and private funds for low-carbon approaches and the strengthening of resilience to climate change. The CCC ensures that the results of the project influence international climate negotiations.

### State of implementation/results

- The project supports the evaluation and review process of the Nationale Climate Change Action Plan NCCAP 2011-2028
- The NCCAP will also serve as the NAP and encompasses an innovative crosssectoral approach
- 162 cities and communes have integrated climate change adaptation and mitigation in their land use planning and development planning through a climate smart planning approach
- The Ministry of Energy and the Climate Change Commission received support for the development of an MRV tool and a GHG inventory
- At the same time, staff received training on how to improve the GHG inventory process
- In November 2017, the Philippines joined the NDC Partnership and participated at the NDC Partnership Forum at UNFCCC COP 23 in Bonn
- On 5 and 6 November 2019, more than 80

## PROJECT DATA

### Country/Countries:

Philippinen

### Implementing organisation:

Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH

### Political partner(s):

- Climate Change Commission (CCC) - Philippines

### Implementing partner(s):

- Climate Change Commission (CCC) - Philippines
- Department of Energy (DOE) - Philippines

### BMU grant:

€ 7,848,402.12

### Duration:

09/2015 till 02/2022

### Website(s):

<http://www.giz.de/en/worldwide/18251.html>

representatives of political partners and implementing organisations met in Manila for the 3rd Networking Workshop of the International Climate Initiative (IKI) for the Philippines. Link to the event documentation:

[www.international-climate-initiative.com/...](http://www.international-climate-initiative.com/...)

- The fourth IKI interface workshop for the Philippines is planned for November 2020 as a virtual format.
- The Philippines Climate Change Consciousness Week is planned for November 19-25, 2020 in a virtual format.
- The project will be one of several partners of the Climate Commission's (CCC) Climate Film Festival, which is also scheduled to take place in a virtual format in November 2020.
