

## TRANSFER III - FACILITATING THE DEVELOPMENT OF AMBITIOUS TRANSPORT MITIGATION ACTIONS

As of: October 2021

Transport accounts for 27 per cent of energy-related CO<sub>2</sub> emissions. Especially in emerging economies and developing countries, these emissions are rapidly growing. To increase their efforts in fostering climate-friendly transport, TRANSfer supports these countries in facilitating the development of implementable mitigation measures, which also contribute to their respective NDCs. The project serves as "Mitigation Action Preparation Facility" and follows a multi-donor approach to expand its support to even more countries. The project's focus is on the development of a set of effective measures in five countries and an acquisition of matching funds. The project also supports selected measures in their early phase of implementation. Toolkits help to constantly improve and accelerate the project activities. International learning processes will foster an increase of the ambition level. As a result, the project activities potentially have a mitigation impact of at least 60 Million tonnes CO<sub>2</sub> over ten years.

### State of implementation/results

- Support of the Initiative "MobiliseYourCity".
- Cooperation with partner countries on mitigation actions in the transport sector – Annual event "Transport and Climate Change Week" in Berlin with participants from 30 countries ([www.transportweek.org](http://www.transportweek.org)).
- Homepage of the project "Changing Transport" ([www.changing-transport.org](http://www.changing-transport.org)) incl. social media ([twitter.com/...](https://twitter.com/...), [www.youtube.com/...](https://www.youtube.com/...), [www.facebook.com/...](https://www.facebook.com/...)) and Changing Transport Newsletter ([www.changing-transport.org/...](http://www.changing-transport.org/...)).
- Transport and Climate Change Global Status Report in cooperation with SLoCaT ([www.changing-transport.org/...](http://www.changing-transport.org/...)).
- MobiliseYourCity Emissions Calculator and video-based-trainings in English, French and Spanish ([mobiliseyourcity.net/...](http://mobiliseyourcity.net/...)).

## PROJECT DATA

### Country/Countries:

Indonesien, Kolumbien, Peru, Philippinen, Thailand

### Implementing organisation:

Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH

### Political partner(s):

- Departement of Transport and Communications (DOTC) - Philippinen
- Ministry of Transport - Colombia
- Ministry of Transport and Communication (MTC) - Peru
- Ministry of Transport Thailand
- Ministry of Transportation - Indonesia

### BMU grant:

€ 11,000,000

### Duration:

01/2017 till 10/2022

### Website(s):

<http://mobiliseyourcity.net/>

<http://www.changing-transport.org/project/transfer>

<http://www.transportweek.org/>

- Deutsche Welle video contribution on the city toll in Bangkok, which was supported by TRANSfer country support for Thailand ([p.dw.com/...](https://p.dw.com/)).
- Indonesia:
- Support for the shift of freight transport from road to rail and modernisation of trucks.
- Philippines:
- Development of the Philippine Urban Mobility Program - Concept for a national urban transport program in the Philippines ([www.changing-transport.org/...](https://www.changing-transport.org/)).
- Peru:
- Support for the development of a truck-scraping program and a truck eco-driving program
- Colombia:
- Support for the development of a national funding program for electric buses
- Thailand:
- Development of a national urban transport program for Thailand with a focus on bus fleet renewal, introduction of a city toll and a public transport fund ([www.changing-transport.org/...](https://www.changing-transport.org/)).
- The flagship publication 'NUMP Guidelines' (Guidelines for the development of national policies and investment programmes on sustainable urban transport) was published and launched in December 2020 at the 'En Route to COP26' event.
  - TRANSfer Climate Action Toolkits have been available on [www.changing-transport.org/toolkits](https://www.changing-transport.org/toolkits) since November 2020.
