

UN Climate Change Conference
Durban, South Africa | 28 November to 9 December 2011

AFRICAN COP: FROM THE PERSPECTIVE OF GERMANY'S INTERNATIONAL CLIMATE INITIATIVE (ICI)

Side event organised by the International Climate Initiative (ICI) of the German Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU)

The German Government has been cooperating with African countries for a number of decades, and has in recent years placed growing emphasis on collaborating with African partners in the field of climate change adaptation and mitigation.

With reference to specific projects, the side event shows how the ICI finances climate protection and adaptation measures together with African partners. The side event promotes exchange of experiences on priority themes such as climate-friendly technologies (example South Africa) and specific adaptation needs (example Mali). It also addresses forest protection initiatives at a regional scale (example Congo Basin).

Time: Thursday, 1 December, 6:00 – 8:00 p.m.

Location: EU Pavilion, room Warsaw

Moderator: Norbert Gorißen, Head of Division International Climate Finance,
International Climate Initiative, BMU

With speakers from the South African supermarket Pick n' Pay, the Agency for Environment and Sustainable Development (AEDD) of Mali and the International Institute for Applied Systems Analysis (IIASA).
