IKI news – Climate and biodiversity financing in practice

The International Climate Initiative (IKI) of the Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU) has been financing climate and biodiversity projects in developing, newly industrialising countries and in the transition countries since 2008. The IKI supports efforts towards a comprehensive global climate agreement, forms part of the German climate financing, and fosters synergies between climate protection and biodiversity conservation. Read more about how this innovative form of climate and biodiversity financing works and which projects the initiative funds.

NEWS FROM THE PROJECTS

Environment Mobile on Tour in Albania
Four Albanian teachers use the FiKiBio Environment Mobile to tell school children about climate and environment conservation.

Picking up on sustainable room ACs
Experts discuss ways to unlock the uptake of climate friendly air conditioners in the European market.

Going beyond official requirements: Viet Nam commits to its NDC
Viet Nam is reviewing and updating the country's NDC, taking its international commitment on climate change to the next level.
