UN Summits Week in retrospective

Climate action and sustainable development were the key topics of the UN General Assembly from 23 to 27 September 2019. During the UN Summit Week, the Federal Ministry for the Environment, Nature Conservation and Nuclear Safety presented several new initiatives funded by the International Climate Initiative to implement the 2030 Agenda and the Paris Agreement.

Old traditions lead to new chances in Mali

Adaptation to climate change can be about rediscovering old knowledge, for example adapted agriculture. Additionally, distributing sheep to the population helps to compensate for crop shortfalls.

Southeast Asia: First banks to avoid deforestation

Banks contribute to deforestation by investing in palm oil, pulp or paper production. However, the finance sector is beginning to recognise its important steering role, a WWF study finds.
