## Strategic Exchange & Informal Networking

We are glad that the current situation allows the COP 26 to take place in Glasgow and for us to meet each other in person. We would like to benefit from this occasion to discuss and share experiences among implementing organisations but also to seize the opportunity for an informal exchange after a long day at COP26.

Participants will discuss the transformation towards a carbon-neutral and climate-resilient society and more specific how IKI-projects can contribute to this transformation by

- building private-sector partnerships,
- upscaling project results, and
- fostering gender equality.

## Event registration

If you are at the COP in Glasgow and if you are involved in the International Climate Initiative (IKI), you are welcome to register to the event.
