

Overview IKI projects 2nd IKI Evaluation Cycle

This list shows the names of the IKI projects that were evaluated over the course of the 2nd IKI Evaluation Cycle (2017-2022).

Projekttitel
A Global Early Warning System for Climate Change - A Case Study for Designing the System
Adapting Public Investment to Climate Change in Latin America (IPACC II)
Adapting to Climate Change by Improving Water Management and Irrigation Productivity
Advancing from Mitigation Ambition to Action (A2A) - Phase I
Advancing Understanding of Natural Forest Carbon Stock Enhancement as part of REDD+
African Eco-Labeling Mechanism
Assessing and capitalizing on the potential to enhance forest carbon sinks through forest landscape restoration while benefitting biodiversity
Assessment and development of a revised and expanded Protected Area Network in the Democratic Republic of Congo
Avoidance of deforestation and forest degradation in the border area of southern Laos and central Vietnam for the long-term conservation of carbon sinks and biodiversity
Avoiding Greenhouse Gas Emissions through the Restoration and Sustainable Management of Peatlands in the Ukraine
Biodiversity Conservation through Preparatory Measures for Avoided Deforestation (REDD) in the Merang Peat Forest Area
Biodiversity in a changing climate: community-based strategies for the protection, management and development of wild coffee's region of origin
Building capacity in the use of the Global Bioenergy Partnership indicators for sustainable bioenergy
Building GHGs National Inventory Systems - Capacity Development for National GHG's Inventories in Non-Annex I Countries
Building momentum for low carbon development in the Philippines and Colombia

Building the Resilience of Communities and their Ecosystems to the Impacts of Climate Change in Micronesia and Melanesia
Capacity building for low carbon growth in Ukraine
Capacity Building for REDD+ Funds Tracking
Capacity Building to Establish and Develop the Technical and Institutional Infrastructure Required to Achieve the 2020 Goals (short title: GHG Monitoring in China)
Capacity Development for GHG inventories and MRV in Tunisia
Capacity Development on Renewable Energy and Grid Integration (CapREG)
Catalyzing Forest and Landscape Rehabilitation for Climate Resilience and Biodiversity Conservation in East Africa
Cities fit for climate change
Cities in Asia develop climate sensitive adaptation plans
Clean Energy Finance Innovation Programme
Climate change adaptation through biodiversity promotion in Bac Lieu Province, Viet Nam
Climate change and protected area management
Climate change governance capacity: building regionally- and nationally-tailored ecosystem-based adaptation in Mesoamerica
Climate Protection and Preservation of Primary Forests – A Management Model using the Wild Coffee Forests in Ethiopia as an Example
Climate Protection in Croatia
Climate Protection Partnerships with the Private Sector / PPP Programme for Climate Protection Global
Climate protection through forest conservation in Pacific Island States
Climate Protection with Renewable Energies on the Galapagos Islands in consideration of Electricity Production with Jatropha Oil
Climate-Resilient Eastern Caribbean Marine Managed Areas Network (ECMMAN)
Co-management Amazon Peru
Compensatory Payments for the Protection of Indigenous Community Forests within the context of Peru's Tropical Forest Programme (CBC II)

Credit line for the promotion of renewable energies and energy efficiency in Southern and Eastern Africa
Credit Programme for Energy Efficiency
Database for management of climate adaptation information and data
Designing and Communicating Low Carbon Energy Roadmaps for Small Island States of the Caribbean
Developing a Bioenergy Strategic Model to support Energy Nationally Appropriate Mitigation Action in Peru
Developing a Climate Adaptation Strategy for the Metropolitan Region of Santiago and a Regional Learning Network for Latin American Megacities
Developing a resilient and effectively managed network of Marine Protected Areas in the Lesser Sunda Ecoregion.
Development of business models to address drivers of deforestation
Development of integrated monitoring systems for REDD+ in the Southern Africa Development Community (SADC)
Ecosystem Based Adaptation in Mountain Ecosystems
Ecosystem-based Adaptation for Smallholder Subsistence and Coffee Farming Communities in Central America
Ecosystem-based adaptation in marine, terrestrial and coastal regions as a means of improving livelihoods and conserving biodiversity in the face of climate change
Ecosystem-based Adaptation strategies to climate change in Colombia and Ecuador
Ecosystem-Based Adaptation to Climate Change in the Magdalena River Basin
Ecosystems Protecting Infrastructure and Communities (EPIC)
Efficient and Environmentally-Friendly Use of Animal Waste in Turkey
Eletrosul Solar Project
Empowering LDCs and SIDS Leadership for High Level Negotiations on Climate Change
End-User Finance for Access to Clean Energy Technologies in South and South-East Asia (FACET)
Energy Efficiency and Cogeneration in Public Hospitals (Pilot Project)
Energy Efficiency for sustainable tourism in Pangandaran, Indonesia

Energy efficiency in the Tunesian industry
Enhancing low-carbon development by greening the economy in cooperation with the Partnership for Action on Green Economy (PAGE)
Enhancing low-carbon development by greening the economy: policy dialogue, advisory services, tracking progress
Expansion Strategy for Grid-Connected Renewables (with Grid Study)
Exploring mechanisms to promote High Biodiversity REDD: Piloting in Viet Nam
Fast track development of 2 transformative climate-compatible development plans
Forest and climate protection in Panay
Forest and climate protection on Panay
Forest Conservation Mata Atlântica II
From Climate Research to Action under Multilevel Governance: Building Knowledge and Capacity at Landscape Scale
Global Emissions Report
Global influencers initiative on shifting financial flows
Global Nature – protecting the earth’s riches
Green Climate Fund Readiness Programme
Green Cooling Initiative
Green Economy and Locally Appropriate Mitigation Actions (GE-LAMA-I) in Indonesia: strengthening district-level capacity for reducing land-based emissions and greening of economy within RAD-GRK (NAMA) policy
Grenada - Pilot Programme for an Integrative Adaptation Strategy
'Heart of Borneo' Forest Conservation Initiative, Succow Foundation Portion/Restoration of Peatswamp Forests in Central Kalimantan
Improved protected area system in Komi Republic for better conservation of globally important biodiversity and maintenance of carbon pools
Incorporating the ‘Amazon indigenous REDD+ proposal’ into climate change strategies
Increasing the resilience of the Amazon biome: protected areas as an integral element of climate change adaptation

Information Matters: Capacity Building for Ambitious Reporting and Facilitation of International Mutual Learning through Peer-to-Peer Exchange
Innovative development planning integrating adaptation to climate change in Mali
Innovative financing for building community resilience to climate change in coastal Viet Nam
Innovative Insurance Products for Climate Change Adaptation
Innovative Mechanisms for a Cooperative Climate Change Adaptation Program in Sierra Madre and the Coast of Chiapas, Mexico
Innovative Tools to Lower the Entry Barriers and Allow for Scaling-up of Carbon Market Activities in Under-Represented Regions
Inspire, support, and mobilize forest and landscape restoration
Integrated Approaches to the Development of Climate Friendly Economies in Central Asia
Integrated financial management of climate risks in the agricultural sector in Peru
Integrated Modeling of the Land Use, Water and Energy Nexus of Brazilian Biofuels Expansion under Climate Change
Integrated Planning to Implement the CBD Strategic Plan and Increase Ecosystem Resilience to Climate Change
International Climate Policy Dialogue
International Knowledge Transfer in the Energy Efficiency Sector (bigEE_ Bridging the Information Gap on Energy Efficiency Phase II)
Inventory of methods for climate adaptation
Land-Use Planning and Sustainable Biomass Production for Climate Protection
Leadership Training in the Environment and Climate Sector - Phase II
Low Carbon Land Use
Mainstreaming of ecosystem based adaptation into the national climate change adaptation strategy and into land use and development of Viet Nam
Managing marine and coastal biodiversity in Pacific island states and atolls
Marine and coastal biodiversity of Costa Rica – capacity-building and climate change adaptation

Measurement and Performance Tracking (MAPT) of Climate Change Mitigation Activities
Mexican-German Climate Change Alliance (Phase II)
Mitigation Action Implementation Network (MAIN) I - Stimulating Ambitious Nationally Appropriate Mitigation Actions (NAMAs) to Reduce GHGs in Developing Countries
Mitigation Action Implementation Network (MAIN) II: Implementing Ambitious NAMAs in Latin America and Asia
Mitigation Action Implementation Network (MAIN) III: Fulfilling the Promise of NAMAs to Enhance International Climate Ambition
Mitigation Momentum I - Bringing a range of supported mitigation activities in selected countries to the next level
Mitigation Momentum II
Mobilising resources for the effective implementation of Namibia's updated National Biodiversity Strategy and Action Plan
Modernisation of public transport in Lviv (Phase II)
Multimedia project Global Ideas - Together for Climate Protection (Phase II)
NAMA-Programme for the construction sector in Asia
National Climate Finance Institutions Support Programme
National energy efficiency plan as a core element for an activity- and evidence-based mitigation strategy
National Forest Monitoring and Information Systems for a transparent and truthful REDD+
National Green Growth Plan for Ethiopia and Three Other Countries
National REDD+ system in the Philippines
Operationalising Green Economy Transition in Africa
Pacific Mangroves Initiative for Climate Change Adaptation and Mitigation
Participation and transparent structures in the post-2015 adaptation architecture
Participatory Management for Sustainable Use and Conservation of Wetland, Coastal and Marine Protected Areas, India
Permanent Office – Indo-German Energy Forum (Phase 2 – Climate Change Mitigation and Decentralised Power Generation – Indo-German Energy Forum)

Pilot testing of Global Bioenergy Partnership (GBEP) criteria and indicators for sustainable bioenergy in targeted developing countries
Piloting nested REDD+ accounting in Colombia
Preserving Biodiversity in the Nyungwe Forest
Prevention, control and monitoring of fires in the Brazilian Cerrado
Promoting Community Conservation Resilience
Promoting Ecosystem-based Adaptation through Mangrove Restoration and Sustainable Use in Thailand and Vietnam
Promoting Low Carbon Transport in India
Promotion of sustainable supply and use of bioenergy in agriculture and forestry in the Russian Federation and Ukraine
Promotion of the 'Conservando Juntos' tropical forest protection programme in Peru
Protected Area Management Enhancement in the Philippines
Protecting and sustainably using marine and coastal biodiversity in the Gulf of California, Mexico (Biomar)
Protecting biodiversity by integrating ecosystem services into public programmes and business - TEEB
Protecting Forest for the Benefit of Climate, People and Nature in Paraguay - a Multi-level Approach
Protection and restoration of coastal ecosystems for improved adaptation to climate change in the Philippines and the Coral Triangle
Protection of carbon pools and sinks in wetlands and protected areas in Panama
Providing Training for Integrating the Renewable Energy Networks for Supplying Electricity in Selected Newly Industrialised Countries and Developing Countries (RE Grid System)
REDD for Early Movers - Acre
REDD+ benefits: designing REDD+ benefit-sharing systems that reduce poverty
REDD+ Policy Assessment Center (REDD-PAC)
Reduction of CO2 emissions through protection and sustainable management of the autochthonous mixed forests in the Russian Far East (RFE)
Regional and child-centred climate change adaptation in Southeast Asia

Regional Energy Efficiency Programme for Corporate sector
Regional institutions, adaptation, and insurance: expanding coverage for medium-level weather extremes in vulnerable countries using risk reduction and innovative insurance solutions
REN@EARTH - Facilitating Clean Energy Knowledge Acquisition (for Students) in the Humid Tropics with a Multiplier Effect
Risk management strategies for climate change adaptation in agriculture in Kenya
RZD Energy Efficiency Programme
Scaling up innovative, community-based protection of coastal biodiversity in Indonesia, Philippines, and Pacific
Scaling up mangrove EbA in the Mekong Delta
Scholarship programme for young management professionals from developing and emerging countries in the field of climate and resource protection (phase I)
Scholarship programme for young management professionals from developing and emerging countries in the field of climate and resource protection (phase II)
Sectoral Study on Climate and Refrigeration Technology in Developing Countries and the Development of Methods and Instruments for Identifying Reduction Potential and Implementing NAMAs
Sino-German Climate Partnership
Sino-German Climate Partnership and Cooperation on Renewable Energies
Sino-German Environmental Partnership
Solar Mapping and Monitoring (SolMap)
Solar Resource Atlas for the Mediterranean
Solarenergy for electricity and thermal generation
Solar-hybrid microturbine systems for cogeneration in agro-industrial electricity and heat production (SMILE)
Start-up financing for renewable energy and energy efficiency projects in developing countries
Strengthening the national park system to foster climate change mitigation and biodiversity conservation
Strengthening transparency, accountability, anticorruption and public oversight in climate finance governance

Support of Nationally Intended Determined Contributions (INDCs) in Peru
Support of the national forest monitoring
Support to the Indonesia Climate Change Trust Fund (ICCTF): Enhancing governance of climate finance in Indonesia
Supporting Structures for the LifeWeb Initiative
Supporting the implementation of REDD+ Peru
Survive: Science and policy to assist and support SIDS and LDCs to negotiate a strong international climate regime
Sustainable development options and land-use based alternatives to enhance climate change mitigation and adaptation capacities in the Colombian and Peruvian Amazon while enhancing ecosystem services and local livelihoods
Sustainable Palm Oil Production for Bioenergy
Terrestrial Carbon Accounting International Academic Partnership (TCAICP)
Towards Climate-Friendly Transport Technologies and Measures (TRANSfer II)
Transboundary Biosphere Reserve Mono Delta
Transportation Demand Management in Beijing – Mitigation of emissions in urban transport
Tropical forest protection and sustainable community development in the Sierra del Lacandón National Park in Guatemala
Unlocking Forest Finance - Mobilisation of private sector capital to reduce deforestation through Public/Private Partnerships for forests and rural livelihoods.
Utilising landscape scale forest ecosystem rehabilitation as a cost effective bridge for the integrated deployment of national land-based mitigation and adaptation strategies
Valuation of Mexico's Protected Areas Climate and Ecosystem Services: a Tool for Innovative Climate Change and Biodiversity Financing
ValuES: Methods for integrating ecosystem services into policy, planning and practice
V-NAMAs – integrating sub-national actors into national mitigation strategies through vertically integrated NAMAs
Water Infrastructure Solutions from Ecosystem Services Underpinning Climate Resilient Policies and Programmes ('WISE-UP to Climate')
Water Management Pilot Project: Improved Management of Extreme Events through Ecosystem-based Adaptation in Watersheds (ECOSWat)

Western Caucasus World Natural Heritage Site – climate protection through sustainable forest management and decentralised exploitation of renewable energy sources in the newly created buffer zone

Table 1: Project names of IKI projects evaluated over the course of the 2nd IKI Evaluation Cycle
