

INTERNATIONAL CLIMATE INITIATIVE (IKI)

IKI news – Climate and biodiversity financing in practice

The International Climate Initiative (IKI) of the Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU) has been financing climate and biodiversity projects in developing, newly industrialising countries and in the transition countries since 2008. The IKI supports efforts towards a comprehensive global climate agreement, forms part of the German climate financing, and fosters synergies between climate protection and biodiversity conservation. Read more about how this innovative form of climate and biodiversity financing works and which projects the initiative funds.

NEWS FROM THE PROJECTS

Federal Environment Ministry launches call for programme ideas for global climate action and biodiversity conservation

The call for the thematic selection procedure is now open! The IKI has earmarked 240 million euros in funding for the selected programmes in 12 thematic areas. Depending on the idea, programmes can each receive funding of between 5 and 20 million euros. Programme outlines can be submitted until 18 July 2019, 24:00 Hrs (CEST) exclusively through the IKI online platform in English.
