Alignment of NDCs and long-term targets for net-zero targets

This high-level event will focus on the importance of aligning the NDCs and long-term strategy processes to pave the way towards achieving net zero greenhouse gas emissions. We will explore what role the IKI can play in supporting countries in their efforts to achieve ambitious climate targets. Furthermore, we will discuss the policy paper “Beyond climate neutrality” of the German Advisory Council on Global Change (WBGU), open access [here](#).

Panel discussion

You will be able to attend a panel discussion with certain NDC Partnership country representatives from Germany and Argentina and further experts from the NDC Partnership and 2050 Pathways Platform, followed by an exchange with the panelists.

Event registration

In order to register for this event please sign-up at <https://german-climate-pavilion.de/register>

You will receive a registration number via email with which you will be able to log in and follow the livestream.
